| 2011 - 2014 | Computer Science
<i>Bogor Agricultural University</i> |

Technical Summary

- Flutter
- Provider
- Shared Preferences
- React-Native
- Async Storage
- React
- Sequelize
- Redux

Informal Education

- 2018

Full-Stack Developer

Arcademy Tech Education Platform

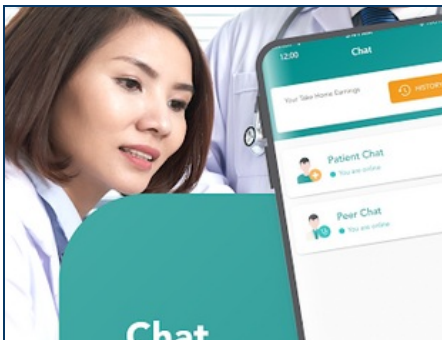

Learn about new technology such as React-Native, MongoDB, Adonis

Interest

I use library not so often, i'd like to test how far i can go with my current skill, except for fast delivering purpose.

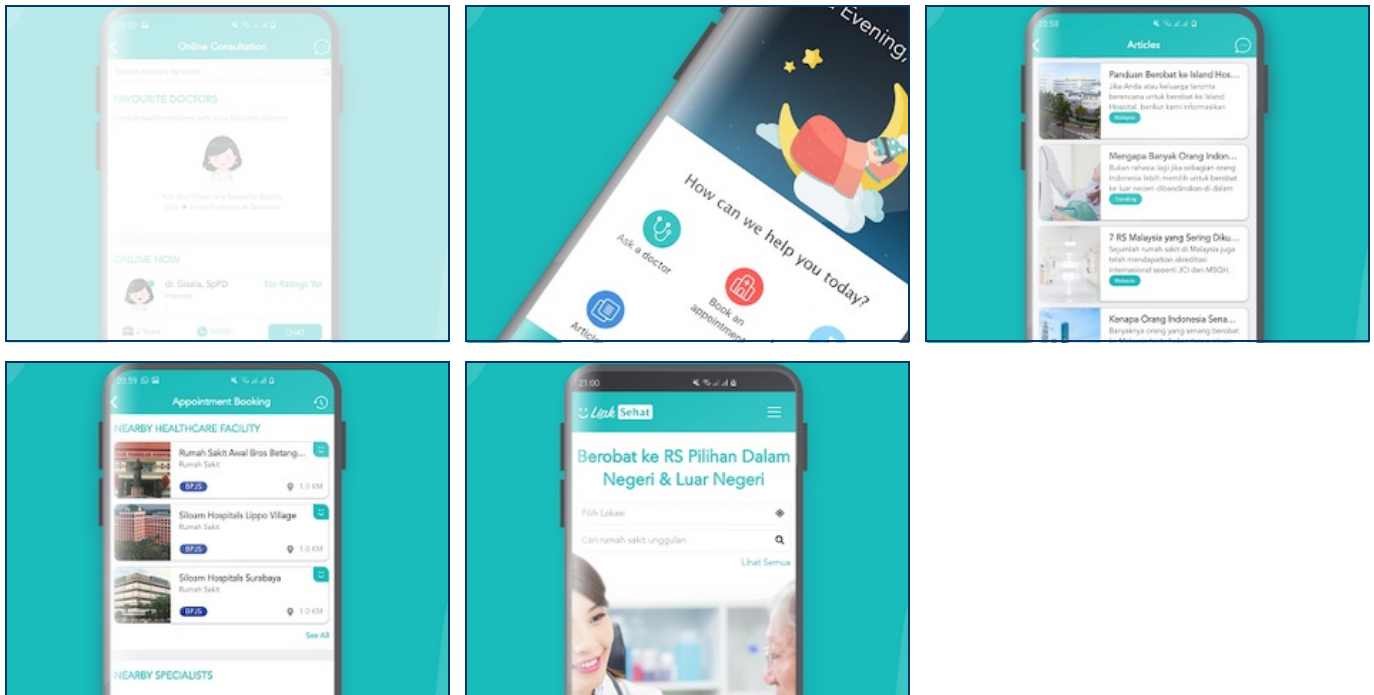

LinkMedis Apps

- Build with React Native
 - Chat feature (Doctor to Doctor & Doctor to Patient) using sendbird
 - video call using twilio
- Rebuild using flutter with same feature
 - Chat feature using qiscus

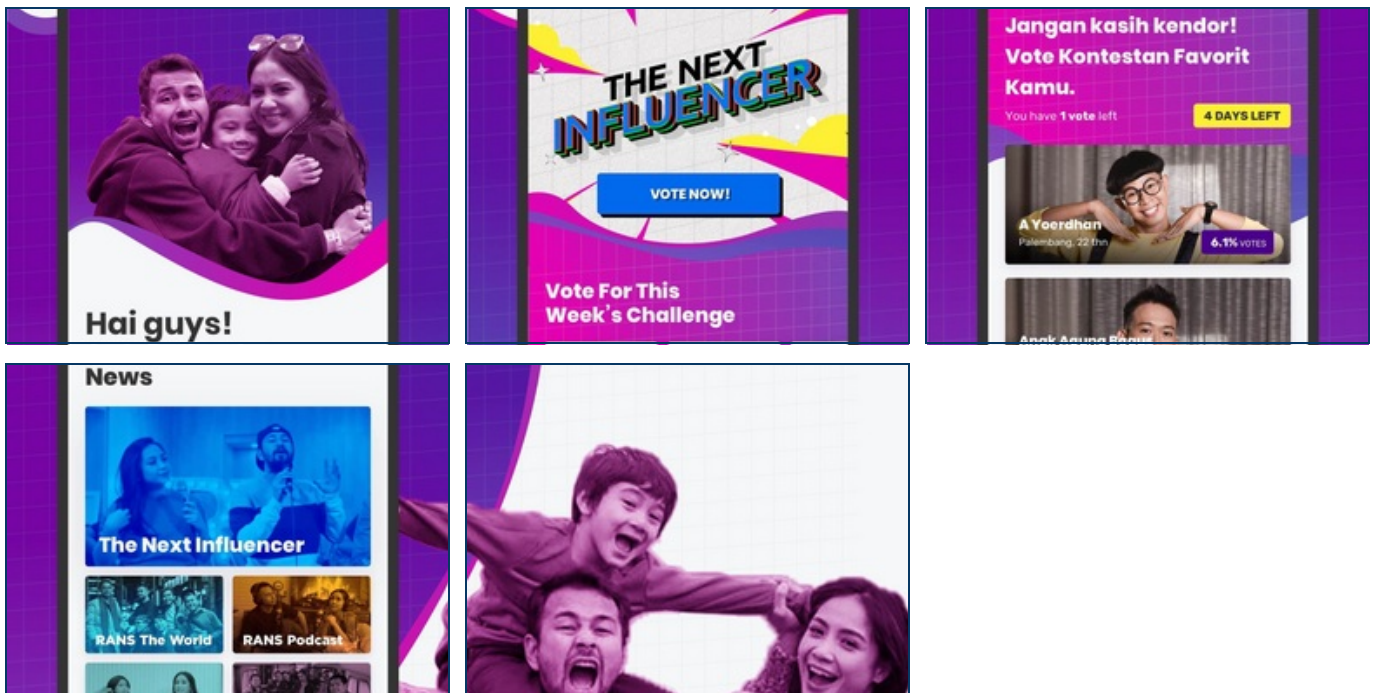

LinkSehat Apps

- Build Using flutter
 - Payment for doctor consultation
 - Chat (qiscus) & video call (twilio)
 - Medical Record for patient integrate with hospital
 - Covid PCR appointment

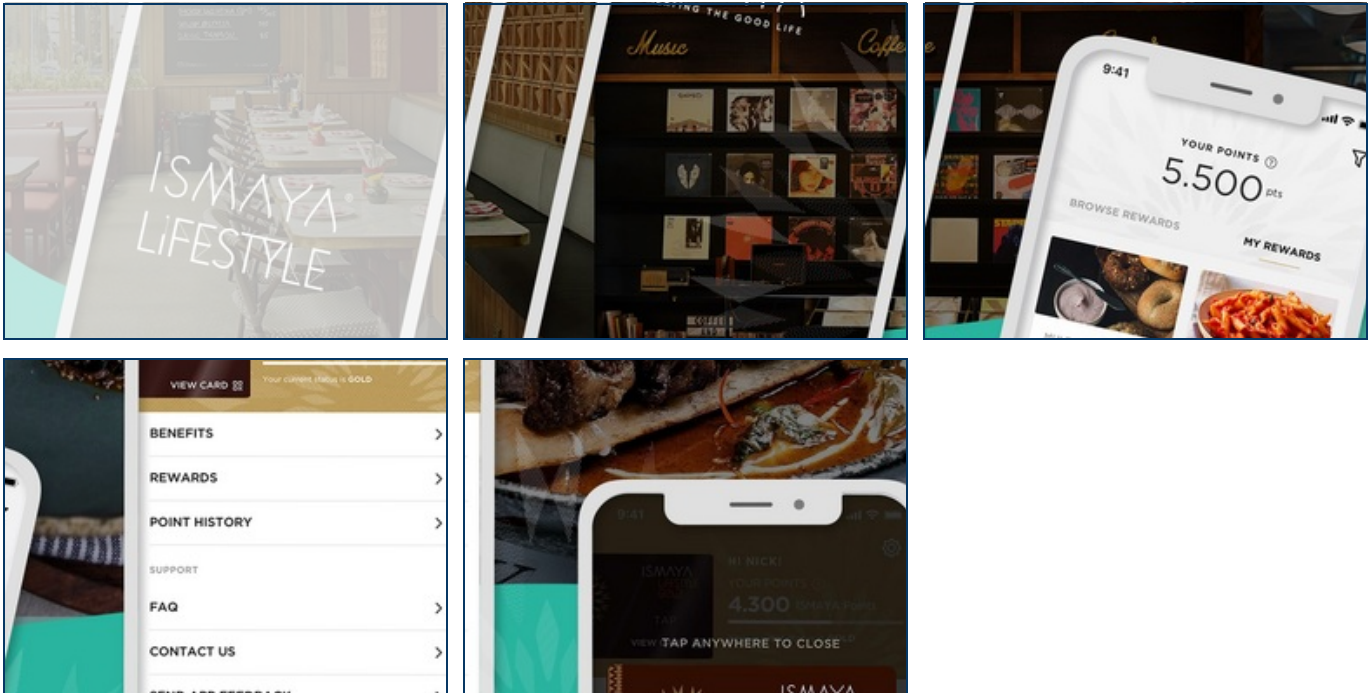

RansApp

- Build with React Native
- Apps for voting idol (The Next Influencer an Indonesian TV Program)
- video player from youtube or mp4 from restAPI
- News update with like feature

Ismaya App

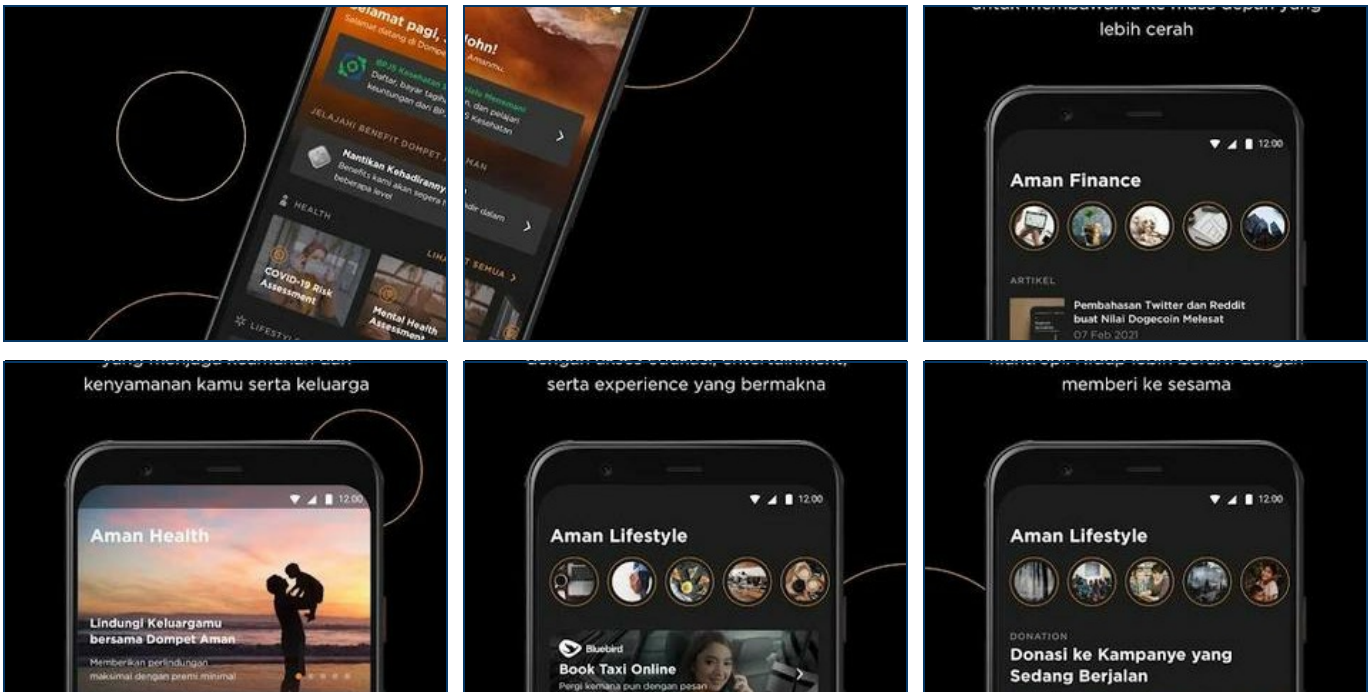

- Order online with Ismaya App
- Online reservations
- Ismaya points, Mission, Member Referral, Member Tier Level
- Redeem points for free item, discount, etc

Dompot Aman App

Dompot Aman is a leading Loyalty Commerce & Reward aggregator app that brings selected solution providers to its users through it's finance, health, lifestyle and social ecosystem.

- User Story like instagram
- Core feature chat and video call still in development (phase 2)

FootyApp

- Realtime push notification of favourite team when play in competition (goal, subs, foul, start match & end match)
- Continue project football apps delayed covid pandemic

- Upgraded from react native below Version 0.59 to 0.63
- Still integrated with old react lifecycle (ComponentDidUpdate, ComponentDidMount, etc)
